## For Families Caring for Someone with Memory Loss or Dementia

*“I just don’t know what to do.”*

Taking care of someone with Alzheimer’s disease or another form of dementia can be challenging. The changes in how the person acts, what they are able to do, and memory loss can result in difficult situations.

The information in “A Guide for Family Caregivers” can answer questions and provide suggestions on how to respond to the most common symptoms of memory loss and dementia.

### **You are Not Alone**

You don’t have to figure everything out on your own. This guide can help. Go online to:

[dhs.wisconsin.gov/dementia/families.htm](https://dhs.wisconsin.gov/dementia/families.htm)

to find the guide and other resources and information that can assist in providing care for family members facing the journey with dementia.
